

CEDARWORKS APPS

Practical AI apps, built to do real work.

A small studio shipping focused, subscription AI apps: two live in the app stores today, and AppForge to build the next eight.

PRE-SEED ROUND

\$250K

Springfield, MO

James Chambers, Founder · james@cedarworksapps.com · 417-370-2084 · cedarworksapps.com

THE PROBLEM

Busy professionals get generic AI, not tools built for their job

Pastors are stretched thin

Sermons, Bible studies, devotionals, kids' ministry, social posts and translation fill the week. Most of it starts from a blank page, spread across a dozen tabs.

Sales reps practice on real prospects

Discovery and objection-handling are learned live, on the calls that matter. Every fumbled objection is a lost deal and lost commission.

General chatbots don't close the gap

A blank chat box doesn't know the workflow, the vocabulary or what 'good' looks like. People give up or spend more time prompting than working.

OUR SOLUTION

Focused AI apps that each do one job really well

Cedarworks Apps builds niche, subscription AI apps: one profession, one clear job, a running start in seconds. Each app has its own workflow, prompts and guardrails, so users get results instead of a blank chat box.

One studio, many apps. Shared code, shared infrastructure, one founder-led team.

Built for one job

Purpose-built workflows, not generic chat

Everywhere users are

iOS, Android and web

Recurring revenue

Monthly subscriptions with free trials

A portfolio, not a bet

Many apps spread the risk and share costs

PastorAI: an AI ministry assistant for the whole week

Features

- Sermon and sermon-series planning
- Bible study and devotional writing
- Children's ministry lessons
- Church social media content
- Translation for multilingual congregations
- Output shaped to the pastor's own voice

Lightens the load without replacing the pastor: less busywork, more time with people.

\$47

per month subscription

~15

trial members today

iOS • Android • Web

live in both app stores

Ready Room: a flight simulator for sales calls

\$29

per month subscription

~15

trial members today

iOS • Android • Web

live in both app stores

How it works

- A voice AI plays a realistic, often skeptical prospect
- It reacts to how you sell: warms up to good questions, shuts down when pushed
- Drills discovery and objections on price, timing and trust
- Easy, medium and hard levels
- An AI coach grades every session and says what to fix next

The best closers aren't born. They're rehearsed.

AppForge: our in-house system for finding and building the next app

1 Analyze

Scans the market for underserved niches with real demand and willingness to pay

2 Select

Scores ideas on demand, competition and fit, and picks the strongest

3 Build

Reuses the proven Cedarworks stack of AI, voice, billing and app-store shells

4 Launch

Ships to iOS, Android and web with trials and subscriptions ready on day one

Why it matters: each new app launches faster and cheaper than the last, and AppForge's market data picks where to build. Investor money goes into apps people already want.

TRACTION

Built, shipped and live, before raising a dollar

2

AI apps live on the
Apple App Store & Google
Play

~30

trial members across
PastorAI & Ready Room

2

subscription tiers
(\$47 and \$29 per month)

1

founder who built and
launched both apps

What's next: convert today's trial members to paid, then scale with paid acquisition. The product, stores and billing are already in place; distribution is the missing piece this round funds.

Two large markets to start, with room for eight more

PastorAI: churches

300,000+

Protestant and independent congregations in the U.S. alone, most of them small, with few staff.

At \$47/mo (\$564/yr), each 1% of U.S. churches is about \$1.7M in annual recurring revenue.

Ready Room: sales professionals

Millions

of U.S. workers hold sales jobs, and new reps and small teams rarely get structured call practice.

At \$29/mo (\$348/yr), every 10,000 reps is about \$3.5M in annual recurring revenue.

Recurring subscriptions across a growing portfolio

App subscriptions

Monthly plans with free trials, billed through the App Store, Google Play and the web. PastorAI \$47/mo • Ready Room \$29/mo.

Group plans

Multi-seat plans for sales teams and church staffs: a higher contract value from one buyer.

Custom AI apps

Custom AI software built for local businesses: service revenue that helps fund the studio and brings in app ideas.

Portfolio effect: every app shares one codebase, one AI stack and one founder's overhead. Each new app adds revenue with little added fixed cost.

How we'll turn trials into paying customers

PastorAI

- Targeted Facebook & YouTube ads to pastors and church staff
- LinkedIn outreach to ministry leaders
- Partnerships with denominations, church networks & seminaries
- Pastor conferences, webinars and free sermon-prep resources

Ready Room

- LinkedIn and short-form video ads showing live AI role-plays
- Direct outreach to sales managers for team plans
- Sales-trainer, coach and bootcamp affiliate partners
- App Store search optimization and referral rewards

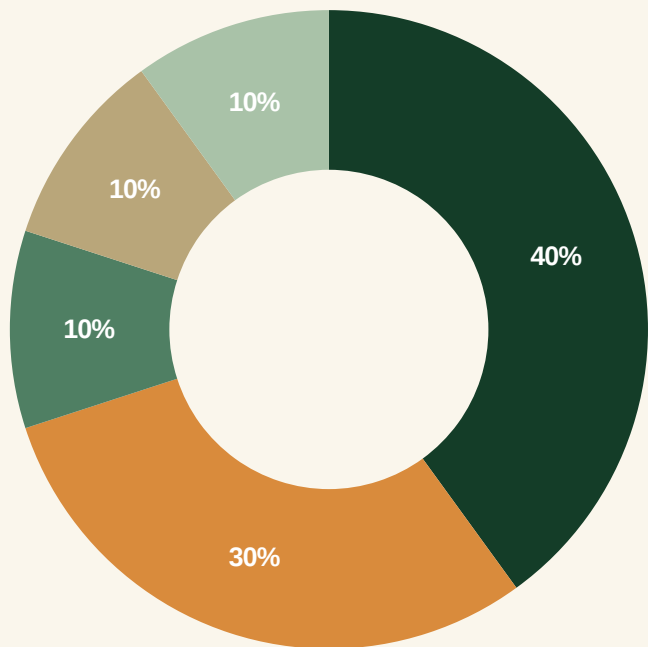

Why Cedarworks wins

	Generic AI chatbots	Enterprise training / point tools	Cedarworks apps
Built for one profession	No	Partly	Yes
Ready to use with no prompting	No	Partly	Yes
Voice role-play & coaching (Ready Room)	No	Often costly	Yes
Price for individuals & small teams	Low	High	Low (\$29-\$47)
New products launched quickly	N/A	Slow	AppForge

Our moat is speed and focus: a small, efficient studio that goes deep on niches the big platforms ignore.

USE OF FUNDS

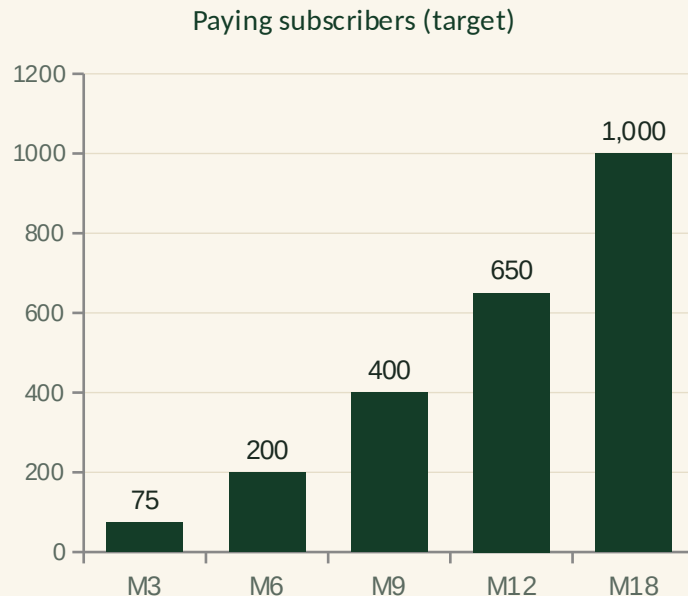

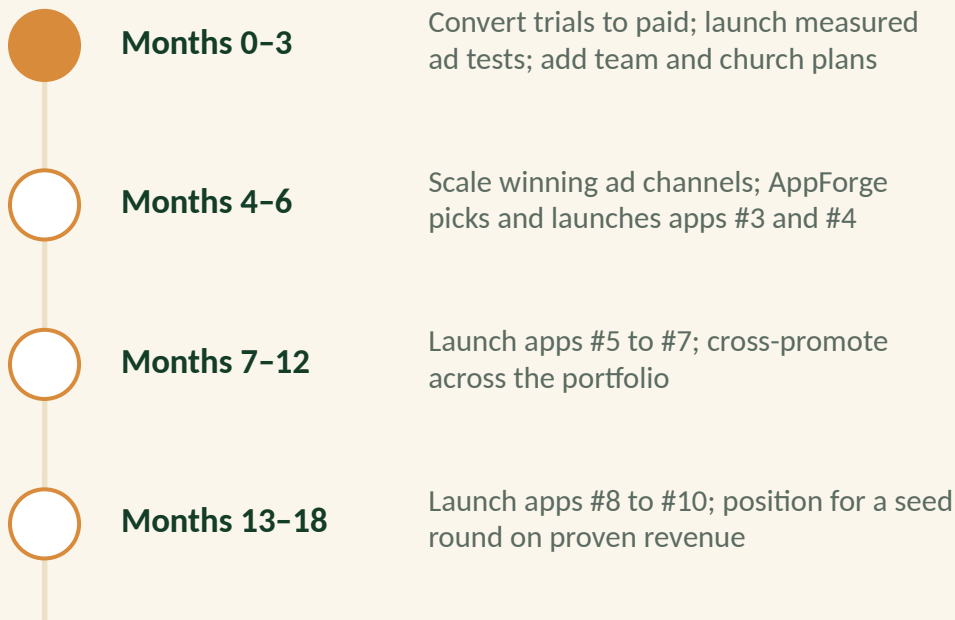

\$250K to scale two apps and launch eight more

- **\$100K** Customer acquisition: PastorAI & Ready Room ads
- **\$75K** Build 8 new apps with AppForge
- **\$25K** AI compute, hosting & infrastructure
- **\$25K** Legal, accounting & app-store operations
- **\$25K** Founder runway & reserve

About 18 months of runway on a lean, founder-led cost base.

From 2 apps to 10: milestones this round unlocks

Targets, not forecasts: 1,000 subscribers at a ~\$38 blended price ≈ \$38K MRR (~\$450K ARR).

Founder-led, with a proven ability to ship

James Chambers

Founder & CEO

- Designed, built and launched PastorAI and Ready Room
- Shipped both to the Apple App Store and Google Play
- Created AppForge, the studio's market-analysis and build engine
- Leads product, AI, marketing and customer relationships

Hiring with this round

Contract developer

Speeds up launches of the next eight apps

Part-time growth marketer

Runs paid acquisition and partnerships

Advisors

Ministry, sales-training and SaaS mentors

THE ASK

Raising \$250K to take Cedarworks from 2 apps to 10

- Scale PastorAI and Ready Room with paid acquisition
- Launch 8 new market-picked apps with AppForge
- Reach ~1,000 paying subscribers in 18 months
