Cedarworks Apps at a glance

Problem Statement

Pastors and salespeople lose hours to repetitive prep and unpracticed skills. Generic AI doesn't fit their work.

Traction & Metrics

Both apps live on iOS, Android and web; ~30 trial users; \$0 MRR (pre-revenue); team of 1.

Business Model

Monthly subscriptions, ~68–77% estimated gross margin, target LTV:CAC of 3:1 or better.

Team

Founder James Chambers: computer science degree, 40+ years in sales, built both apps.

Solution & Product

Focused AI apps: PastorAI (\$47/mo) for ministry and Ready Room (\$29/mo) for sales-call practice.

Market Opportunity

~\$690M U.S. TAM across 300K+ churches and ~1.5M B2B sales reps; 8 more apps widen it.

Competitive Landscape

Direct: ministry software, sales role-play platforms. Indirect: ChatGPT. We win on focus and price.

The Ask

\$250K pre-seed for about 18 months: grow the two apps and launch 8 more with AppForge.

Generic AI doesn't fit how pastors and reps work

Pastors are overloaded

Sermons, Bible studies, devotionals, kids' ministry, social posts and translation fill the week, often for a pastor with little or no staff. Most of it starts from a blank page.

Sales reps practice on real prospects

Discovery and objection-handling are learned live, on the calls that matter. Every fumbled objection costs a deal and a commission.

General chatbots don't close the gap

A blank chat box doesn't know the workflow, the vocabulary or what 'good' looks like, so people spend more time prompting than working.

Why we know this problem: Founder James Chambers watched the weekly workload his bishop carried, and spent 40+ years in sales watching reps learn objection-handling on live deals.

Focused AI apps that each do one job really well

Cedarworks Apps builds niche, subscription AI apps: one profession, one clear job, a running start in seconds. Each app has its own workflow, prompts and guardrails, so users get results instead of a blank chat box.

One studio, many apps. Shared code, shared infrastructure, one founder-led team.

PastorAI: an AI ministry assistant for the whole week

Features

- Sermon and sermon-series planning
- Bible study and devotional writing
- Children's ministry lessons
- Church social media content
- Translation for multilingual congregations
- Output shaped to the pastor's own voice

How it works

- A voice AI plays a realistic, often skeptical prospect
- It reacts to how you sell: warms up to good questions, shuts down when pushed
- Drills discovery and objections on price, timing and trust
- Easy, medium and hard levels
- An AI coach grades every session and says what to fix next

Designed by a founder with 40+ years in sales.

AppForge: our in-house system for finding and building the next app

1 Analyze

Scans the market for underserved niches with real demand and willingness to pay

2 Select

Scores ideas on demand, competition and fit, and picks the strongest

3 Build

Reuses the proven Cedarworks stack of AI, voice, billing and app-store shells

4 Launch

Ships to iOS, Android and web with trials and subscriptions ready on day one

Why it matters: each new app launches faster and cheaper than the last, and AppForge's market data picks where to build. Investor money goes into apps people already want.

Built, shipped and live, before raising a dollar

Market Opportunity

A ~\$690M U.S. market for our first two apps

TAM: total addressable

300K+ U.S. congregations × \$564/yr ($\approx$ \$169M), plus ~1.5M U.S. B2B sales reps × \$348/yr ($\approx$ \$522M).

SAM: serviceable

The ~30% we can reach with digital, self-serve sales: small and mid-size churches, and individual reps and small teams.

SOM: 3-year target

1% of SAM, or about 4,500 subscribers and ~\$2M in annual recurring revenue.

Expansion

Each of the 8 AppForge apps adds a new market on top of these two.

How we'll turn trials into paying customers

PastorAI

- Targeted Facebook & YouTube ads to pastors and church staff
- LinkedIn outreach to ministry leaders
- Partnerships with denominations, church networks & seminaries
- Pastor conferences, webinars and free sermon-prep resources

Ready Room

- LinkedIn and short-form video ads showing live AI role-plays
- Direct outreach to sales managers for team plans, drawing on 40 years of sales contacts
- Sales-trainer, coach and bootcamp affiliate partners
- App Store search optimization and referral rewards

Why Cedarworks wins

	Indirect: generic AI chat (e.g. ChatGPT)	Direct: ministry software (e.g. Logos, Pulpit AI)	Direct: sales role-play (e.g. Second Nature, Hyperbound)	Cedarworks apps
Built for one profession	No	Yes	Yes	Yes
Ready to use with no prompting	No	Partly	Yes	Yes
Built for small churches & individual reps	Yes	Partly	No (enterprise)	Yes
Self-serve monthly price	Low	Varies	Sales-led	\$29-\$47
Launches new niche products quickly	N/A	No	No	AppForge

Our edge: focus and speed. We go deep on niches the big platforms ignore, at a price individuals pay without a sales call, and AppForge keeps adding new ones.

Use of Funds

\$250K to scale two apps and launch eight more

- **\$100K** Customer acquisition: PastorAI & Ready Room ads
- **\$75K** Build 8 new apps with AppForge
- **\$25K** AI compute, hosting & infrastructure
- **\$25K** Legal, accounting & app-store operations
- **\$25K** Founder runway & reserve

About 18 months of runway on a lean, founder-led cost base.
