CEDARWORKS APPS

Practical AI apps, built to do real work.

Pre-seed round

$450K

Springfield, MO

An AI app studio with two apps live in the app stores today, and AppForge, our in-house app factory, to build the next eight.

James Chambers, Founder · james@cedarworksapps.com · 417-370-2084 · cedarworksapps.com

Executive Summary

Cedarworks Apps in one minute

What we do

We build focused AI apps for specific professions and sell them as monthly subscriptions.

Live today

PastorAI ($47/mo) for pastors and Ready Room ($29/mo) for sales reps, on iOS, Android and web.

Our engine: AppForge

Our in-house app factory finds proven app ideas, writes the code and builds the marketing for each app.

The ask

$450,000 pre-seed to fund full-time building, market our two apps and launch eight more in 18 months.

Generic AI doesn't fit how pastors and reps work

Pastors are overloaded

Sermons, Bible studies, devotionals, kids' lessons and social posts fill every week, often with little or no staff. Most of it starts from a blank page, and it leaves little time for people.

Sales reps practice on real prospects

Reps learn to handle objections on live calls. One fumbled objection can cost a deal worth thousands in commission, and practice tools are mostly built for big companies.

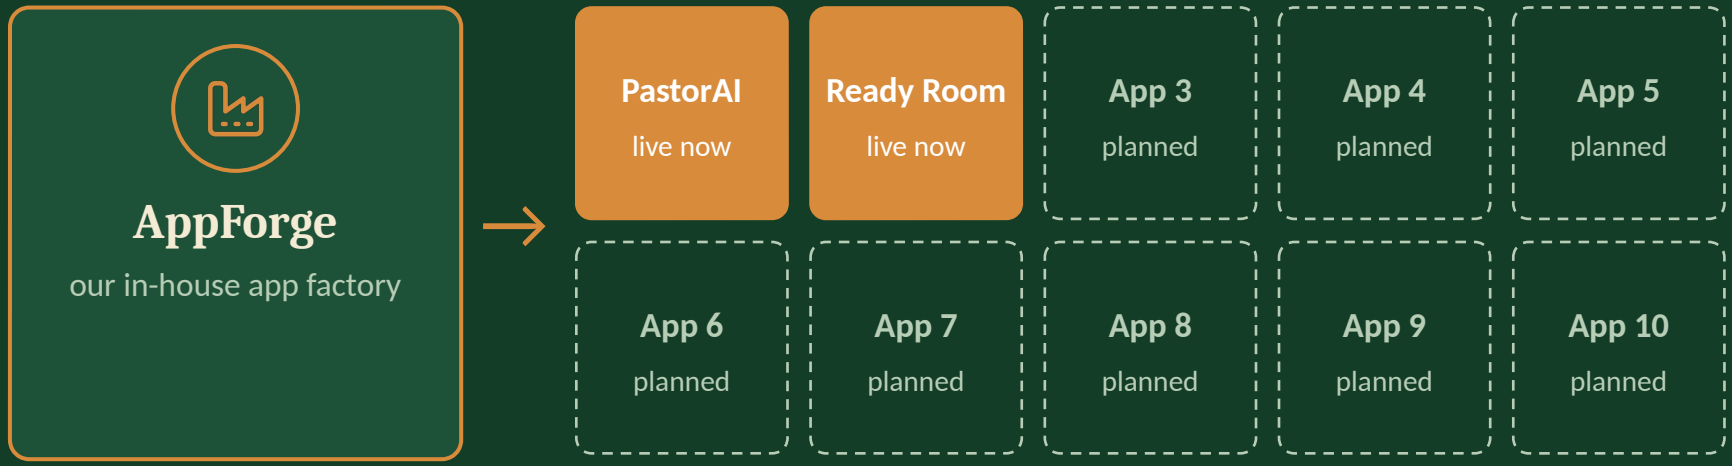

General chatbots don't close the gap

Tools like ChatGPT don't know these jobs. People spend more time writing prompts than getting their work done.

Why we know: founder James Chambers watched his bishop's weekly workload, and spent 40+ years in sales.

One studio, many focused AI apps

Each app does one job for one profession, with no prompting needed. Every app shares one codebase, one AI stack and one operating system, so each new app costs less to launch and run.

Apps 3–10 will be chosen from AppForge's market research, not guesswork.

PastorAI: an AI ministry assistant for the whole week

What a pastor can create

Sermon Builder: full outlines with scripture and application
Series Planner: multi-week sermon series
Bible Study: small-group guides with questions
Social Media: 7 days of posts from one sermon
Devotionals and children's lessons
Translation into 10 languages
Rehearsal: practice delivering the sermon

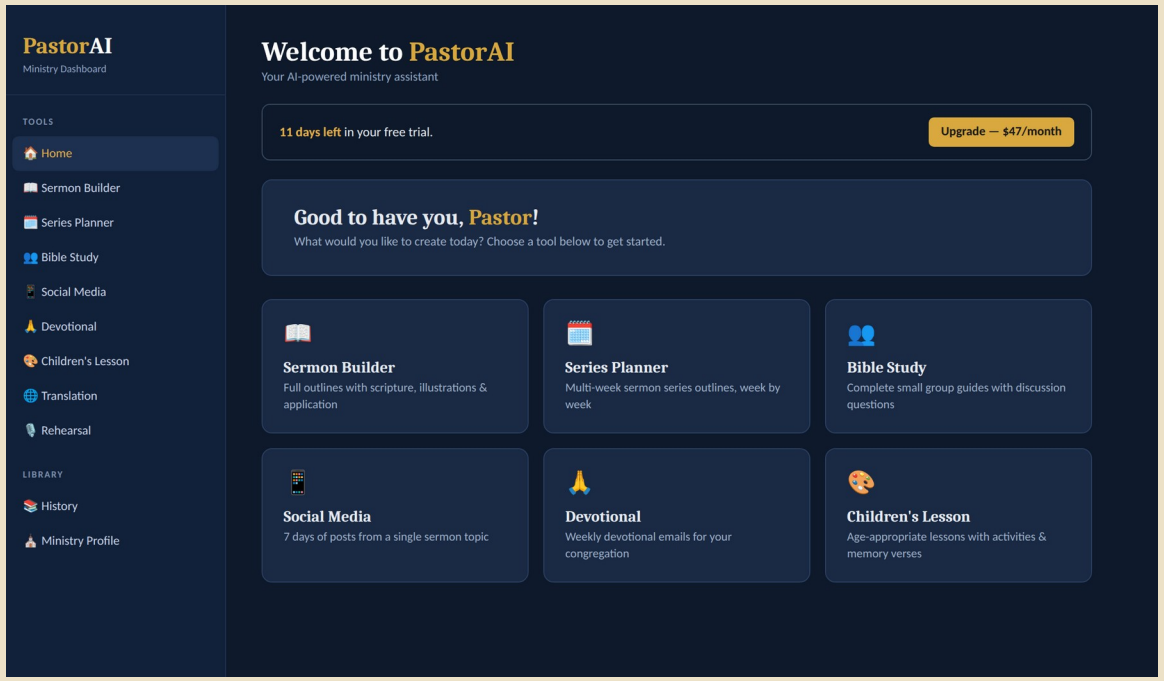

"This will save me so much time. It's a great tool." — Pastor Dennis, trial user

$47/mo
after a 14-day free trial

~15
trial users so far

3 platforms
iOS, Android and web

One dashboard for the whole ministry week

1 **Pick a tool**

Eight ministry tools, one click away in the sidebar.

2 **Create in minutes**

For example, a full sermon outline with scripture, illustrations and application.

3 **Try free, then subscribe**

A 14-day free trial, with the $47/month upgrade built into the app.

Ready Room: a flight simulator for sales calls

$29/mo
or $249/year

~15
trial users so far

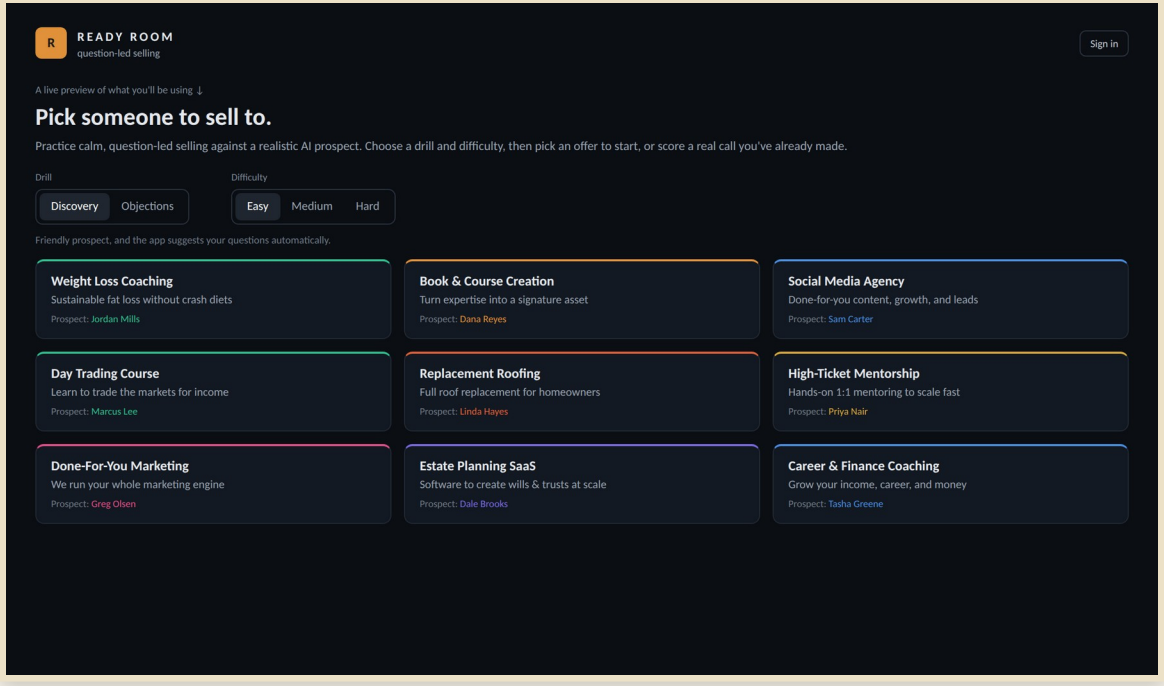

3 platforms
iOS, Android and web

How reps practice

Talk out loud to a voice AI prospect that reacts to how you sell
Two drills: discovery questions and handling objections
Three levels: easy, medium and hard
18+ prospects across industries, from roofing to software
Score real calls: record live, upload a recording or paste a transcript
AI coach grades every session and says what to fix next

Built on the founder's 40+ years in sales.

Pick a prospect, pick a drill, start selling

1. **Choose a drill**
   Discovery or objections.

2. **Set the difficulty**
   Easy, medium or hard.

3. **Pick a prospect**
   18+ industries, each with a realistic AI buyer.

4. **Get scored**
   An AI coach grades every call, including real calls you upload.

AppForge: our in-house app factory

One system that takes us from market research to a finished, marketed app. It's internal only: our competitive edge, not a product we sell.

1 Know

Learns the business, audience and goals

Brain · Chief of Staff

2 Find

Finds proven app ideas with real demand

Top 100 Apps · App Types · Opportunities · Market Analysis · Viability Scorer

3 Build

Plans the app and writes the code

Projects · Tech Stack · Build · Store Listing

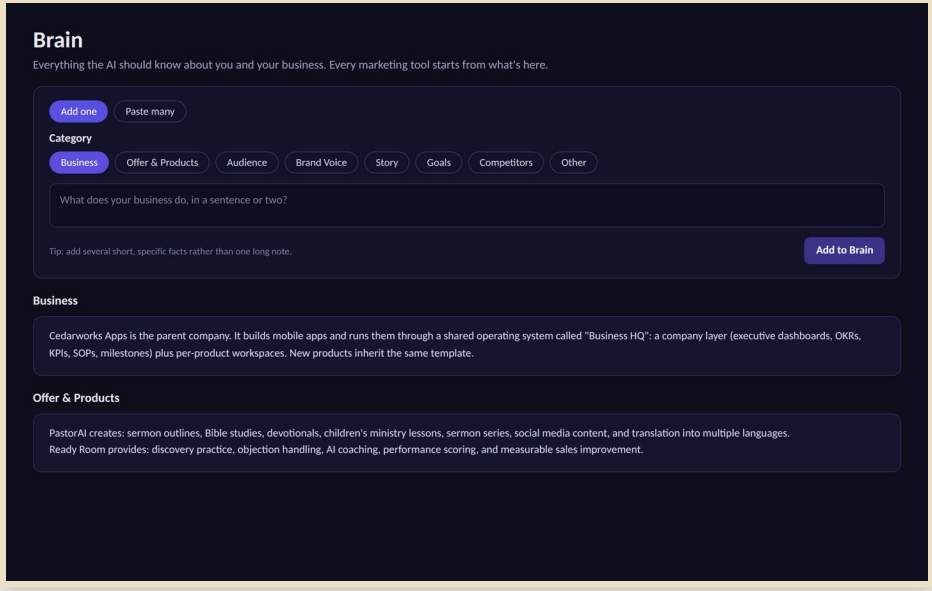

4 Market

Builds a marketing funnel for each app

Attractive Character · Framework Extractor · One-to-Many Emails, Social, Ads & Presentations

Brain and Chief of Staff: AppForge learns the business

AppForge's Brain screen

Brain

Stores what the AI should know about the owner and business, in 7 areas: business, offers and products, audience, brand voice, story, goals and competitors. It's used to pick apps that fit the owner and to write marketing in their voice.

Chief of Staff

An AI business partner grounded in the Brain. Ask it a question, such as “I want to develop an app for…”, and it researches the answer and helps decide what to do next.

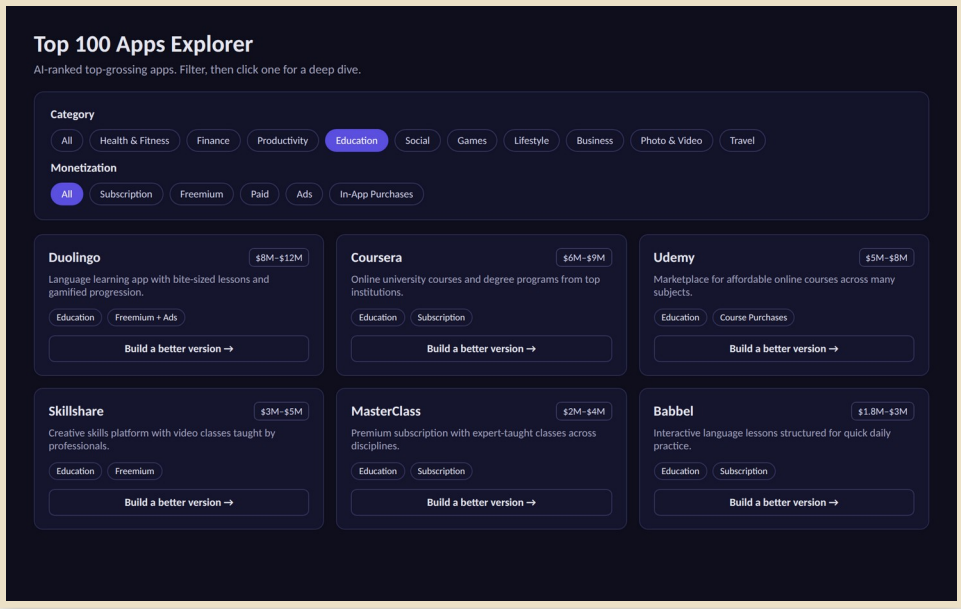

Start from apps people already pay for

Top 100 Apps Explorer: ranks the top-grossing apps by category and how they make money (subscription, freemium, ads).

Build a better version: one click starts a new app from a proven idea, focused on a niche the big apps underserve.

App Types & Opportunities: suggest specific, scored app ideas.

Market Analysis & Viability Scorer: check demand, competition and fit before we build.

Top 100 Apps Explorer. Revenue ranges are AppForge's AI estimates.

AppForge plans the app and writes the code

Projects

Each app gets its own workspace, plan and milestones.

Tech Stack

Picks the technology, reusing our proven AI, voice and billing setup.

Build

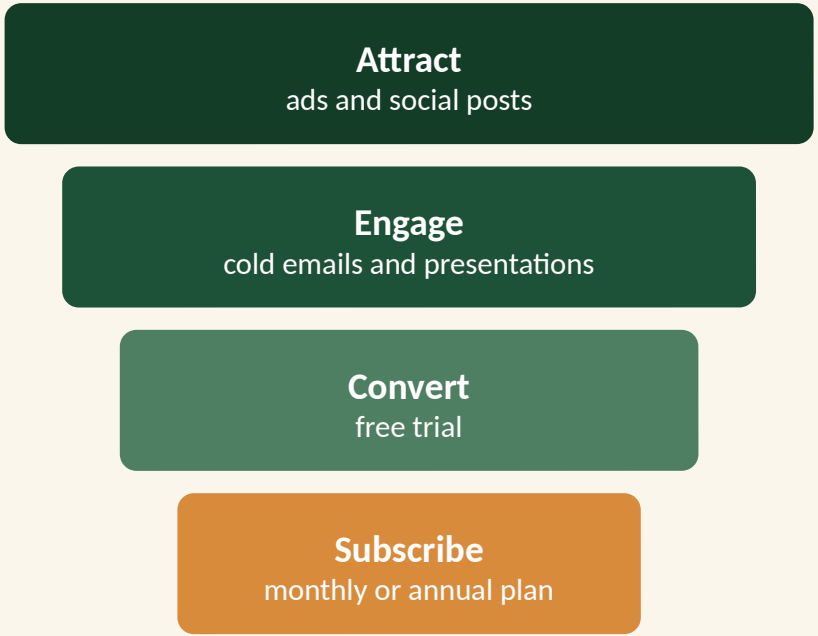

Generates the working app code.

Store Listing

Writes the App Store and Google Play listing.

Business HQ: every new app plugs into our shared operating system (dashboards, goals, key metrics, procedures and milestones), so one small team can run ten apps.

A ready-made marketing funnel for every app

Attractive Character: the brand persona and founder story behind the marketing

Framework Extractor: turns the owner's know-how into frameworks the content is built on

One-to-Many Emails: cold-email campaigns that bring in trial users

One-to-Many Social & Ads: social posts and ad copy

One-to-Many Presentations: presentations that sell to many people at once

All of it is written from the Brain, in the owner's voice.

Why AppForge matters to investors

Less guesswork

Every new app starts from proven demand and a viability score.

Faster launches

AppForge writes the code, so a new app takes far less time to build.

Lower cost per app

Shared code, AI stack and Business HQ keep each app's cost low.

Marketing from day one

Every app launches with its funnel, emails and ads ready.

PastorAI and Ready Room were built before AppForge, and the lessons from building them went into it. Apps 3–10 will be the first built with AppForge.

Traction & Metrics

Built, shipped and live, before raising a dollar

2
apps live in the app stores

3
platforms: iOS, Android, web

~30
trial users across both apps

$0 MRR
pre-revenue · team of 1

Milestones reached

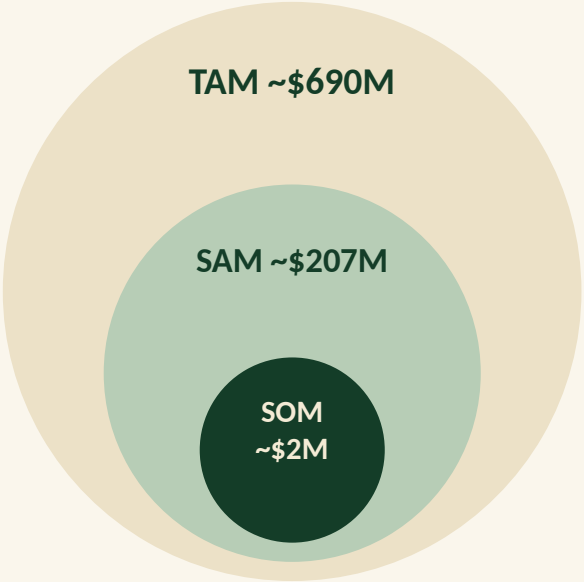

- Cedarworks Apps LLC formed (2026)
- PastorAI live on App Store, Google Play and web
- Ready Room live on App Store, Google Play and web
- Subscriptions and free trials working
- AppForge built for apps 3–10
- First testimonial from a trial user

Goals for the next 90 days

Paying subscribers	**75**
Monthly revenue (MRR)	**~$2,850**
Trials that convert to paid	**20%+**
Subscribers who cancel each month	**under 6%**

Market Opportunity

A ~$690M U.S. market for our first two apps

Total market (TAM): ~$690M

Everyone who could buy: 300K+ U.S. churches × $564/yr (≈$169M) plus ~1.5M U.S. B2B sales reps × $348/yr (≈$522M).

Reachable market (SAM): ~$207M

The ~30% we can reach with online, self-serve sales.

Our 3-year target (SOM): ~$2M a year

1% of the reachable market: about 4,500 subscribers.

Each of the 8 AppForge apps adds a new market on top of these two.

Sources: Hartford Institute for Religion Research and U.S. Religion Census (congregations); U.S. Bureau of Labor Statistics (wholesale and manufacturing sales reps). Prices: current PastorAI and Ready Room plans.

Why the timing is right

AI got affordable

The cost of running language and voice AI has fallen sharply since 2023, so $29–$47/month apps can earn healthy margins.

People expect AI help

Most professionals have tried AI chat and found it doesn't fit their daily work. Focused apps fill that gap.

Small teams can ship fast

App stores handle distribution and billing, and AppForge lets one team launch app after app.

Who we sell to: pastors and staff at small and mid-size churches; individual sales reps and small sales teams; sales managers and church networks buying group plans; and new niches chosen by AppForge.

Recurring subscriptions across a growing set of apps

App subscriptions

Monthly or annual plans with a free trial first, sold through the App Store, Google Play and the web.

Group plans

Multi-seat plans for sales teams and church staffs: one buyer, several users.

Custom AI apps

Custom builds for local businesses: extra revenue and new app ideas.

Pricing today: PastorAI $47/month after a 14-day free trial · Ready Room $29/month or $249/year.
Why it scales: every app shares one codebase, AI stack and operating system, so each new app adds revenue with little extra cost.

Each subscriber is worth ~3× what it costs to win

Per subscriber	PastorAI	Ready Room
Monthly price	**$47**	**$29**
What we keep after the 15% app-store fee	**$39.95**	**$24.65**
Estimated AI and hosting cost per user	**~$4**	**~$5**
Gross margin (share of revenue left after those costs)	**~77%**	**~68%**
Lifetime value: profit over an average ~20-month subscription	**~$720**	**~$390**
Most we'll spend to win one customer (CAC)	**$240**	**$130**
Months to earn that cost back	**~7**	**~7**

Rows after the price are planning assumptions (5% of subscribers cancel each month), not results yet.

Go-to-Market Strategy

How we'll turn trials into paying customers

PastorAI

- Facebook and YouTube ads aimed at pastors and church staff
- LinkedIn outreach to ministry leaders
- Partnerships with denominations, church networks and seminaries
- Conferences, webinars and free sermon-prep resources

Ready Room

- LinkedIn and short videos showing live AI role-plays
- Direct outreach to sales managers for team plans
- Partnerships with sales trainers, coaches and bootcamps
- App store search and referral rewards

Powered by AppForge's marketing tools: cold emails, social posts, ads and presentations for every app.

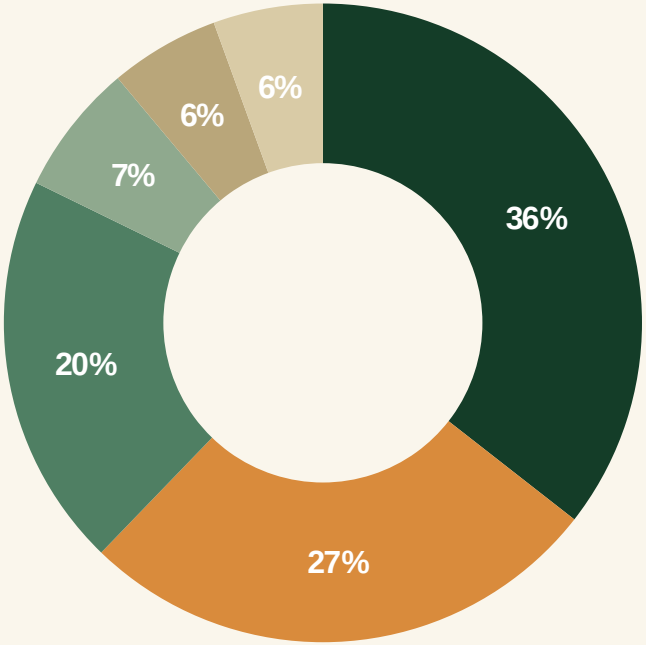

Why Cedarworks wins

	Indirect: generic AI chat (e.g. ChatGPT)	Direct: ministry software (e.g. Logos, Pulpit AI)	Direct: sales practice (e.g. Second Nature, Hyperbound)	Cedarworks apps
Built for one profession	No	Yes	Yes	**Yes**
Ready to use with no prompting	No	Partly	Yes	**Yes**
Made for small churches and individual reps	Yes	Partly	No (big companies)	**Yes**
Self-serve monthly price	Low	Varies	Sales call	**$29–$47**
Launches new niche apps quickly	N/A	No	No	**AppForge**

Our advantages: we focus on niches big platforms ignore, at prices individuals can afford, with AppForge to reach new markets fast and a founder who can both build and sell.

Use of Funds

$450K to grow two apps and launch eight more

- **$160K** — Marketing and outreach for all apps
- **$120K** — Founder salary: 18 months full-time
- **$90K** — Building 8 new apps with AppForge
- **$30K** — AI, hosting and infrastructure
- **$25K** — Legal, accounting and operations
- **$25K** — Reserve

About 18 months of runway on a lean, founder-led budget.

Roadmap & Milestones

From 2 apps to 10 in 18 months

Months 0–3

Turn trials into paying users; test ads; add group plans

Months 4–6

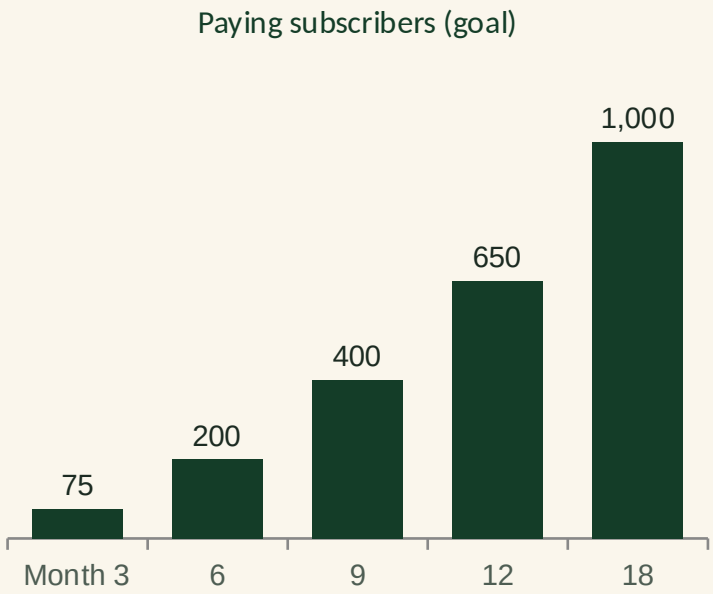

Grow the best ad channels; launch apps 3 and 4

Months 7–12

Launch apps 5 to 7; promote apps to each other's users

Months 13–18

Launch apps 8 to 10; raise a seed round to market all 10 apps at scale

Goals, not guarantees: 1,000 subscribers at ~$38 average ≈ $38K a month in revenue.

Financial Projections · 5-year plan

Profitable in year 3, ~$4.8M revenue by year 5

	Year 1	Year 2	Year 3	Year 4	Year 5
Paying subscribers (end of year)	650	2,000	4,500	8,000	13,000
Revenue	$128K	$604K	$1.48M	$2.85M	$4.79M
App-store fees, AI and hosting (~27%)	$35K	$163K	$400K	$770K	$1.29M
Operating costs (marketing, salaries, other)	$340K	$600K	$900K	$1.40M	$2.00M
Profit (loss)	**−$247K**	**−$159K**	**$182K**	**$680K**	**$1.50M**

Key assumptions

Average price ~$38/month · ~5% of subscribers cancel each month · new apps launch on the roadmap above · this $450K round covers about 18 months, including the founder's salary, and a seed round around month 18 funds marketing apps 3–10 at scale.

Team & Founders

A founder who can both build and sell

James Chambers

Founder & CEO

- Degree in computer science
- 40+ years in sales across many industries
- Started Cedarworks after seeing the workload his bishop carried
- Built PastorAI, Ready Room and AppForge himself
- Will work on Cedarworks full-time with this round

Hiring with this round

Contract developer
Speeds up launching the next eight apps

Part-time growth marketer
Runs ads, outreach and partnerships

Advisors
Ministry, sales-training and software mentors

The Ask

Raising $450,000 to take Cedarworks from 2 apps to 10

- Fund the founder to build full-time
- Market PastorAI and Ready Room to paying users
- Launch 8 new apps with AppForge, reaching ~1,000 paying subscribers in 18 months

Use of funds: $160K marketing · $120K founder salary (18 months) · $90K new apps · $30K AI and hosting · $25K operations · $25K reserve

Pre-seed · terms open to discussion (SAFE or priced round)

Appendix

Key terms used in this deck

TAM / SAM / SOM

Total market / the part we can reach / our target share

MRR / ARR

Monthly / annual recurring revenue from subscriptions

Churn

Share of subscribers who cancel each month

Trial-to-paid conversion

Share of free-trial users who become paying subscribers

Gross margin

Share of revenue left after app-store fees, AI and hosting

LTV (lifetime value)

Profit from one subscriber over their whole subscription

CAC

Customer acquisition cost: spend to win one subscriber

Pre-seed / SAFE

First outside funding round / an agreement that turns into shares later
